GENERAL INFORMATION

SALE LOCATION: Sale will be held at Kist Livestock Auction, located one mile west of the Memorial Bridge on the east edge of Mandan. For the easiest route, take I-94 to exit 33 or 34 to Memorial Highway.

ACCOMMODATIONS:

Baymont Inn & Suites, Mandan	701-663-7401
The Ridge Motel, Mandan	(701)-663-8686

TERMS AND CONDITIONS: Cattle will sell under the Standard Terms and Conditions as recommended by the American Angus Association.

HEALTH: Interstate health papers will be available on sale day.

TRUCKING: Free delivery on bulls up to 500 miles radius with total purchases of \$2500 or more. A \$50 discount is offered on bulls picked up on sale day.

INSURANCE: Will be available to be purchased on sale day and we urge all buyers to insure their bulls.

VETERINARY COSTS: Any veterinary costs incurred after the bulls have been purchased are the responsibility of the buyer.

WINTERING: Wintering arrangements are available on all the bulls. Bulls will be fed free of charge until May 1 after which there will be a charge of \$250.

SEMEN TESTED: The Fast bulls will be fertility tested by Dr. Gerald Kitto, DVM, prior to the sale.

SUPPLEMENTAL INFORMATION: A supplemental data sheet will be available with scrotal measurements, final weights, and ultrasound data. Announcements from the auction block take precedence over catalog information.

LUNCH: Please join us for a complimentary lunch on sale day!

Sight Unseen: Can't make the sale, but would like to bid on the sale cattle? We recommend that you contact any of our sale representatives prior to the sale or bid online at www.frontierlivesale.com.

SALE PREVIEW: Stop by on Thursday, March 12 or Friday, March 13 and preview our sale offering at Kist Livestock Auction!

LOTS

Welcome!

Dear Friends and Cattlemen,

It gives us great pleasure to welcome you to our 49th Annual Production Sale. 2020 marks 69 years that our family has continuously produced registered Angus and 39 years that Richard and Jamie have been in the business! Five years ago our daughter, Rachel, and her husband, Jeremy Strommen, joined our ranching operation and we are excited for them to continue the family business!

We are again offering some outstanding new genetics with a fresh line-up of AI sires and check out the consistent and heavy hitting genetics from our natural service sires!

We encourage everyone to stop by as we would be happy to show the cattle to you. We believe in producing efficient, practical and profitable Angus cattle. We strive for efficient cattle that are just the right size for their environment and still grow heavy calves. Practical cattle that calve easily, are quiet to handle, require less labor and keep feed costs down. Profitable cattle that are affordable, but generate the kind of calves that feeder buyers demand.

We have a great sale offering of bulls that are not creep fed. After weaning they are fed a high roughage ration - low concentrates ration. A ration which allows them to gain evenly and consistently without ruining their feet or jeopardizing their fertility. Our customers report that the life span of our bulls in their herds has been up to 5, 6 and yes... as much as 10 years!

Customer satisfaction is and always will be our highest priority. Approximately 80% of our buyers each year are repeat customers, some have bought our cattle for over 30 years and we appreciate those folks who have patronized us for so many years. We also look forward to helping to provide quality cattle to those who are willing to give us a try for the first time.

Sincerely,
Richard & Jamie Fast
Jeremy & Rachel Strommen

***If we can be of any assistance,
feel free to call us!***

*Fast Angus Ranch: (701) 843-8280
Richard Cell: (701) 391-6968
Jeremy Cell: (701) 260-7405.*

Fast Erica Alt 24 is one of the easiest fleshing, high maternal cows you will find anywhere! She consistently stamps her sons and daughters with quality, eye appeal, structural correctness and heavy weights at weaning time. A Pathfinder cow, she posts a weaning ratio of 108 on 5 calves and a yearling ratio of 112 on 3. She has an adjusted average weaning weight of 853 lbs on 13 bull calves. We have retained every one of her daughters in our herd as well as further compiled her genetics in our herd through use of hers sons, **Fast Capitalist 414**, **Strommen Platinum 683**, and currently **Fast-Strommen Payweight 845**. (Which we have retained interest in all 3.) Both Platinum 683 and Payweight 845 were high selling bulls in our 2017 and 2019 sales. Overall, she has averaged \$8429 on seven sons.

This year we are featuring another top quality set of flush brothers out of this outstanding female. These evenly matched brothers exude thickness, depth of rib, muscle expression and overall exceptional eye appeal. Take your pick, every one is a good one!

Fast Blackbird T 264 has an amazing record of producing top notch females. Her 4 @ 108 weaning ratio would have continued but was spoiled when her 2018 heifer went missing. We believed it to be her best heifer to date. Her natural calves have all been AI sired up until the time we flushed her. Her performance record has proven to be stellar with her lowest weaning ration being 103. Her three daughters that are in production have all been AI'd on the first cycle every year. Her only natural son sold to and excelled in the Hollenbeck Ranch herd. Fast Blackbird T 264 is a Pathfinder cow as likewise her great grand dam, and stems from the highly fertile and maternal Blackbird cow family that can be traced back to the original Blackbird cow, Blackbird of Corskie cow. According to AAA records she was the 685th animal registered and was born 149 years ago.

Featured in this sale will be her first set of flush brothers that will not disappoint. They are stamped one like the other with excellent quality, structural correctness, and powerful growth performance. Surely to be one of the rare opportunities to obtain this kind of consistent performance along with a strong maternal pedigree.

+6	+3.1	+78	+136	+27	+79	+155	94	910	1534

Starting out the sale offering is this super deep sided, attractive, well-balanced and long-bodied bull that combines weaning performance and carcass quality. His +.63 Marb EPD and +48 \$G Value qualifies him to carry the CAB, Targeting the Brand logo. He ranks in the top 2% of the breed for Heifer Pregnancy, the top 3% for WW, YW, and top 5% for \$M and \$W. Retaining a 1/4 semen interest.

2 **Fast-Strommen Reno 966** ET Reg.#19629067 Calved: 2/20/2019 Freeze brand: 966

CED	BW	WW	YW	M	\$W	\$B	BW	WW	YW
+3	+2.3	+77	+141	+25	+71	+151	88	847	1463

One of the taller framed brothers of the flush, this bull possesses plenty depth of rib, length of body and natural muscle expression to sire those heavy calves at weaning time. He also ranks in the top 3% for WW and top 2% for YW. He also ranks in the top 25% for 14 of the 26 EPD's.

3 **Fast-Strommen Reno 974** ET Reg.#19629063 Calved: 2/22/2019 Freeze brand: 974

Should be a great heifer bull. Plenty of growth and power in the pedigree as well. This is one you shouldn't let the numbers fool you! This guy is a maternal powerhouse combining Resource and 414. The 414 Daughters have been superior for mothering ability and the udder quality is absolutely second to none!!! He's a more moderate bull so if you want to raise moderate, easy doing, super udders and star cows. Don't miss this one!

Treasury is a super powerhouse bull! He is nearly as wide as he is deep, with a wide base and a stout foot under each corner. His dam, a first-calf heifer, comes from a super maternal, high performance cow family. His grand dam is a Pathfinder cow and his great grand dam raised 17 natural calves of which were 5 sets of twins. His maternal cow family can trace their lineage directly from the first foundation cow owned by Jamie's grandpa, Simon Opp. Retaining a 1/4 semen interest.

The combination of Treasure on Commando daughters consistently produces exceptional calving ease, good weaning performance and superb carcass traits all wrapped up in a very attractive phenotype package. This bull is out of a first-calf heifer that is Canadian bred on the bottom side.

We Value Our Customers!

Customer satisfaction is and always will be our highest priority! Approximately 80% of our buyers each year are repeat customers and many have bought our bulls continuously year after year.

Why so many repeat customers?

For several reasons: First of all, not all the bulls we raise make the sale. We carefully select our sale offering for overall quality, performance, soundness of feet and legs, disposition and finally fertility. All our bulls must pass a semen test to make the sale!

Secondly, we proudly stand behind our bulls. If for whatever reason our customer is not happy, we will do our best to make it right. Just promptly give us a call.

Thirdly, we are happy to work with the many situations our customers may have. No place to winter a bull? We'll take care of your bull until you have space. Need the bull delivered at a certain time and location? Just let us know. Would like your bull semen collected? We can help with that too.

Visit us at the ranch and attend our sale to learn why our customers are happy with their bulls!

Reno is one of the most sought after bulls in the Angus business for his genetic flawlessness and smooth look and this son should be considered one of his better ones for those traits. He has the style and pedigree to be a "Real" cow maker! The donor cow that 998 and 978 are out of had a string of bad luck but it didn't disprove her ability and power. I consider her to be a similar cow to the Erica ALT 24 cow with a bit more frame size and a weaning ratio of 3 @ 113. CAB Qualified

This is the natural calf out of the GREAT 24 cow! He's 1 1/2 months younger than a lot of the A.I. calves and basically caught up to them, which proves her power! He's one that, if we needed a herd bull, would have stayed home and raised calves in our own herd, but his sire isn't ready to quit quite yet. Dam's Ratio: 5/10

ABOVE AVERAGE GOALS REQUIRE TARGETED BULLS

Aim High

The Targeting the Brand™ logo highlights registered Angus bulls with greater genetic potential to produce calves that meet the most challenging specifications of the *Certified Angus Beef*® brand. Only 3 in 10 non-parent Angus bulls meet the Targeting the Brand genetic requirements.

Minimum Genetic Requirements

	Value
Marbling EPD (Marb)	+0.54

Friends and Cattlemen!

Welcome to our 49th Annual Production Sale! Thank you again to new and old customers for taking an interest in our sale offering! We are proud to be able to offer you a tremendously stout and high performance group of bulls that are rugged and good footed to cover the ground during breeding season. We are excited about the future of the livestock industry and we know these bulls will go on to add value, performance, profitability, and extra pounds when you go to sell your calves. Dohrmann Cattle Co. sired calves continue to top the market!

The genomic-enhanced EPDs in this sale catalog are powered by Neogen. We've made the investment in the world's most advanced DNA testing for seedstock cattle. This information provides you extra confidence in the product you are purchasing and allows all of us to do a better job improving genetics and profitability. Keeping your operation profitable is one of our top priorities. We feel it is very important to make sure the parentage is correct through DNA testing.

The bulls have been fed a high roughage ration and long hay with no silage. They have been developed to maintain structural soundness and hoof development.

Bulls left for wintering will have a semen evaluation before delivery and we will be retaining a 1/3 semen interest in all our bulls.

All bulls are fully guaranteed to be breeders and are sold under the terms and conditions of the American Angus Association.

The bulls have been ultrasound scanned by Jason McLennan, Belle Fourche, SD. Data will be available sale day.

Thank you for taking an interest in our cattle! Feel free to stop and view the cattle at the ranch any time prior to March 11, 2020, or at Kist Livestock thereafter.

Sincerely,

L.J. & Janet Dohrmann

(701) 974-2187/(701) 260-2650

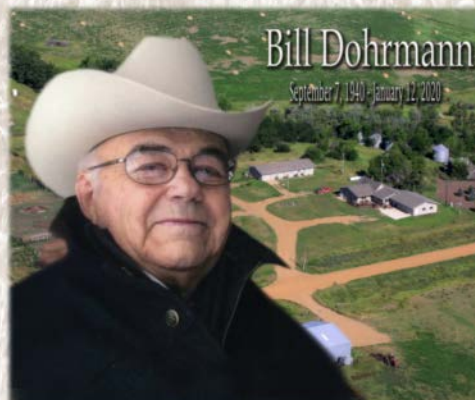

Brent & Jenna Mrnak, Layton, Bennett,

Vance & Ellis

(701)206-0604

Troy and Jeri Carter, Harlee & Coy

(701)305-0104

For this one farmer and cattleman the worries are over. You raised a fine family with faith, kindness and patience few people possess. Your love of the ranch has been passed on to the next generations. You've trailed and checked your cows and driven the back roads one last time. Your labor is done and your home is in heaven now and we will close the gates.

. A phenomenal young bull that has created excitement across the breed! He is an **outcross bull** for so many, that is fault free in his kind - Athletic, long, well-balanced, heavy muscled, clean and worlds of eye appeal. The reports on his calves are coming in and are very exciting, some even say the best they have.

Cowboy Up has more growth performance than any bull we have ever produced and is also extremely docile. **5405** is as wide topped, deep sided, long bodied, wide based kind of bull as you will find. He looks like he would sire progeny that could live outside in the big country and excel in all the traits that keep ranchers in business. He has lived up to our expectations. The name, **Cowboy Up**, just kind of fits, as this bull has done everything we could have hoped for and more. **Balanced trait qualities at their best. 3 Sons Sell!**

Purchased out of the Peak Dot Angus Ranch Sale in 2018 2 Sons Sell!

“Bulls left for wintering will have a semen evaluation before delivery!”

Table 1. Progeny equivalents (PE) – Carcass trait PE equate to actual carcass harvest data not ultrasound scan equivalents.

Trait	PE	Trait	PE
Calving Ease Direct	28	Heifer Pregnancy	14
Birth Weight	21	Calving Ease Maternal	18
Weaning Weight	26	Milk	33
Yearling Weight	21	Mature Weight	11
Dry Matter Intake	8	Mature Height	8
Yearling Height	11	Carcass Weight	9
Scrotal Circumference	13	Carcass Marbling	9
Dodility	10	Carcass Ribeye	12
		Carcass Fat	10

Expected Progeny Differences (EPDs) are provided by the American Angus Association to provide valuable information on registered Angus cattle for important traits such as calving ease, growth, and marbling. The challenge with EPDs is that on younger and unproven animals, EPDs are not as accurate. This sometimes results in a bull or heifer not performing to the cattle producer’s expectation. For example, a commercial producer may purchase a bull with a high weaning weight EPD, but be disappointed in the lack of growth by the bull’s progeny.

In recent years researchers have worked diligently to identify the genetic contribution of various DNA markers. By incorporating this DNA information into the EPDs, the American Angus Association is able to provide much more accurate EPDs called “genomic-enhanced EPDs (GE-EPDs). This technology has advanced considerably in just the past couple years. When an animal is profiled on the Neogen-GeneSeek GGP-LD, the EPD accuracies are
