LOTS

Welcome!

Dear Friends and Cattlemen,

It gives us great pleasure to welcome you to our 51st Annual Production Sale!

Richard and I have always strived to keep the ranch in the family and make it a little better for the next generation. With that in mind, we gave Rowdy his first heifer last year and she successfully produced his first sale bull. We also purchased his junior membership to the American Angus Association this past fall. It brought back memories of when I joined the association 52 years ago! Seems like yesterday!

Our family would like to start by thanking our many valued and loyal customers who have placed their trust and confidence in us to supply them with high-quality seedstock year after year. Our long history in the business tells the story of customer satisfaction that is - and always will be - our highest priority! Approximately 80% of our buyers each year are repeat customers, some have bought our cattle for over 30 years and we greatly appreciate those folks who have patronized us for so many years. We also look forward to helping to provide quality cattle to those who are willing to give us a try for the first time.

We encourage everyone to stop by as we would be happy to show the cattle to you. We believe in producing efficient, practical and profitable Angus cattle. We strive for efficient cattle that are just the right size for their environment and still grow heavy calves. Practical cattle that calve easily, are quiet to handle, require less labor and keep feed costs down. Profitable cattle that are affordable, but generate the kind of calves that feeder buyers demand.

We have a great sale offering of bulls that are not creep fed. After weaning they are fed a high roughage ration - low concentrates ration. A ration which allows them to gain evenly and consistently without ruining their feet or jeopardizing their fertility. Our customers report that the life span of our bulls in their herds has been up to 5, 6 and yes... as much as 10 years!

So join us for our 51st sale! We eagerly look forward to shaking your hand and visiting with new and old friends!

Sincerely,
Richard & Jamie Fast
Jeremy & Rachel Strommen

Treasure has passed every test and now displays over 1,700 progeny records for birth weight and 500 carcass ultrasound records. His abilities as a proven heifer bull in tandem with elite growth and carcass quality have been solidified in some of the breed's toughest contemporary groups. Treasure stamps his progeny with an attractive design, extra length and superior foot quality. His first daughters in our herd have exceptional weaning performance and are highly fertile, most settle in the first cycle!

This is Rowdy Strommen's first bull to be offered for sale and what a nice bull to start in the business! He's structurally correct, stands on a great set of feet and legs and moves with an athletic stride. He combines good growth performance with outstanding carcass EPDs. He posts a +1.10 for Marb and ranks in the top 10% for \$C. Dam's ratio: 1/102.

Don't over look this bull! He had a rather slow start at weaning, but since then he has come on strong...getting deeper, thicker and putting on pounds every day! He's quiet and has a gentle disposition much like his half brother that sold in our 2021 sale to Corey Hintz, Hannover. His dam produces a good one every year. Dam's ratio: 4/102.

We Value Our Customers!

Customer satisfaction is and always will be our highest priority! Approximately 80% of our buyers each year are repeat customers and many have bought our bulls continuously year after year.

Why so many repeat customers?

For several reasons: First of all, not all the bulls we raise make the sale. We carefully select our sale offering for overall quality, performance, soundness of feet and legs, disposition and finally fertility.

Secondly, we proudly stand behind our bulls. If for whatever reason our customer is not happy, we will do our best to make it right. Just promptly give us a call.

Thirdly, we are happy to work with the many situations our customers may have. Need the bull delivered at a certain time and location? Just let us know. Would like your bull semen collected? We can help with that too.

Visit us at the ranch and attend our sale to learn why our customers are happy with their bulls!

Strommen Platinum 683 is the maternal sire of Lots 14, 16, 35 and 39. His daughters have exceptional length of body, quality udders and docile dispositions.

Friends and Cattlemen!

Welcome to our 51st Annual Production Sale! Thank you again to new and old customers for taking an interest in our sale offering! Although we had an extremely dry summer with little to no hay, the grass held up fairly well and the calves came off in good shape. We are offering you a tremendously stout and high performance group of bulls that are rugged and good footed.

We have added two new Herdsires and we are very excited about what they offer to enhance our genetic base. "Outrider" and "Musgrave Southern Charm" both offer tremendous volume, thickness, style and calving ease. We like what we see in their first calf crop!

The bulls have been ultrasound scanned by Jason McLennan, Belle Fourche, SD. Data will be available sale day. The genomic-enhanced EPDs in this sale catalog are powered by Neogen. We provide DNA and actual information to increase the accuracy of the EPDs for the bull you are purchasing and allows all of us to do a better job improving genetics and profitability. Keeping your operation profitable is one of our top priorities.

The bulls were weaned October 20 and put on a high roughage ration and chopped hay with no silage. They have been developed to maintain structural soundness and hoof development.

Bulls left for wintering will have a semen evaluation before delivery and we will be retaining a 1/3 semen interest in all our bulls.

All bulls are fully guaranteed to be breeders and are sold under the terms and conditions of the American Angus Association.

Thank you for taking an interest in our cattle! Feel free to stop and view the cattle at the ranch any time prior to March 11, 2021, or at Kist Livestock thereafter.

Sincerely,

L..J. & Janet Dohrmann

Admired by many for the width, dimension, and structural correctness he maintains in a well balanced package. Excellent set of EPD's that rank him at the top of the breed for CED, WW, CEM, and \$W. 3 Son Sells

“Bulls left for wintering will have a semen evaluation before delivery!”

Expected Progeny Differences (EPDs) are provided by the American Angus Association to provide valuable information on registered Angus cattle for important traits such as calving ease, growth, and marbling. The challenge with EPDs is that on younger and unproven animals, EPDs are not as accurate. This sometimes results in a bull or heifer not performing to the cattle producer's expectation. For example, a commercial producer may purchase a bull with a high weaning weight EPD, but be disappointed in the lack of growth by the bull's progeny.

In recent years researchers have worked diligently to identify the genetic contribution of various DNA markers. By incorporating this DNA information into the EPDs, the American Angus Association is able to provide much more accurate EPDs called “genomic-enhanced EPDs (GE-EPDs). This technology has advanced considerably in just the past couple years. When an animal is profiled on the Neogen-GeneSeek GGP-LD, the EPD accuracies are equivalent on several traits to as if the profiled animal has 12 or more progeny.

Table 1. Progeny equivalents (PE) – Carcass trait PE equate to actual carcass harvest data not ultrasound scan equivalents.

A Special Thank You to Kevin Holten, Wild Rides Producer, The Cowboy Channel and RFD TV for letting us video episodes for your programming this past year!

NOTES

It Means a Lot to Us

By Jamie Fast

*It means a lot to us that you rose early to get the chores done to travel so far and attend our sale,
It means a lot to us that you left your wife/daughter/son to watch over those calving heifers and cows,
It means a lot to us that you arrived early to carefully check out every pen of bulls,
It means a lot to us that we got to shake your hand, answer your questions and invite you to take part
in our lunch,
It means a lot to us that you expressed your appreciation for our genetics and sale offering,
It means a lot to us that you participated to help us celebrate our 51st Anniversary Sale,
To our many loyal customers, dear friends and family...we thank you!*
